

# District 6 Fact Sheet

Serving Fresno, Kern, Kings, Madera and Tulare Counties

## State Route 99 White Lane Interchange

Kern County

### Project Purpose:

There are three projects to upgrade State Route 99 in Kern County at the White Lane Exit. The White Lane Interchange, White Lane Auxiliary Lane and White Lane Soundwall projects.

The interchange at White Lane currently experiences periods of heavy congestion throughout the day causing extensive delays and queuing problems on White Lane, which extend back onto State Route 99 from the exit ramps. Widening the White Lane structure and improving the ramps will help to minimize the impact local traffic has on the State Route 99 mainline and facilitate traffic management..

### Description:

The project will provide for a structural retrofit and widen the White Lane structure over State Route 99 in Kern County. This project will also widen the on and off-ramps as well as install landscaping.

**Construction Cost:** \$5.3 million

**Schedule:** Construction schedules are dependant on the weather and are subject to change.

**Construction Begin:** Fall 2003

**Construction Begin:** Fall 2004

### Funding Sources:

This project is locally funded by The City of Bakersfield.

### Agency Responsibilities:

Department of Transportation (Caltrans)

City of Bakerfield
